

Acid Clean HF

High-Foaming Heavy Duty Acid Detergent

Acid Clean HF is a high-foaming scale, rust and lime remover with built-in metal protection to prevent metal corrosion while it works. Acid Clean HF is effective on cleaning utensils, processing equipment, tanks & vats, coolers, pasteurizers, pumps, pipelines, brick and concrete floors in food processing facilities, canneries, juice & beverage processors, and other institutional operations. Acid Clean HF can also be used to descale boilers, cooling towers and steam equipment.

- **High-Foaming**
- **Effective in Cold or Hot Water**
- **Removes Protein, Rust, Calcium and Hard Water Films**
- **Built-In Corrosion Inhibitors**

Usage Directions: Remove greasy soils from surface with appropriate degreasing product. Make a solution of Acid Clean HF in accordance with Dilution Guidelines chart. Apply solution with sprayer, sponge, brush, or other applicator. Allow sufficient time for Acid Clean HF to dissolve soils. Multiple applications may be necessary depending on soil level.

Safety & Hazards

Wear Protective Eye Glasses, Chemical-Resistant Gloves, Vapor Respirator and Waterproof Apron While Using Acid Clean HF

Consult SDS for Further Safety Precautions

DOT Shipping Name: UN 1789, Hydrochloric Acid Solution, 8, PG II

Technical Information:

Appearance: Orange Liquid
Odor: Pungent Acid
pH: <2.0
Foam: High Foam

Associated Products:

Resque Plus, Heavy Duty Degreaser With Caustic

Acid Clean HF Dilution Guidelines

| Usage | Dilution |
|----------------|-----------------------|
| Light Soils | 2 - 4 oz per Gallon |
| Moderate Soils | 6 - 12 oz per Gallon |
| Heavy Soils | 14 - 60 oz Per Gallon |

Titration Kit:

MRTK1005-Z, Acidity Titration. 1 Drop = 0.589 oz per gallon

Warning: Do Not Mix With Alkaline Or Chlorinated Products. May Damage Painted Surfaces, Aluminum, Brass, Copper, Galvanized And/Or Other Soft Metals.
