

Defoamer 10

Silicone Defoaming Additive

Defoamer 10 is a concentrated defoaming agent effective as a suppressant of foam in spray cabinets, wash tunnels, CIP applications, and food manufacturing applications where food contact with the defoamer may occur (such as egg washing or brine tank applications.) Defoamer 10 is manufactured with a food grade silicone defoaming agent.

- **Can Be Used to Reduce Foam in Almost Any Solution**
- **Useful in Industrial, Automotive & Food Processing Applications**
- **Concentrated & Economical Solution**

Usage Directions: Defoamer 10 can be pre-diluted with water or added directly to the foaming solution. Refer to the Dilution Guidelines chart for usage rates.

Safety & Hazards

Wear Protective Eye Glasses and Chemical-Resistant Gloves While Using Defoamer 10

Consult SDS for Further Safety Precautions

DOT Shipping Name: Not Regulated

Defoamer 10 Dilution Guidelines

Usage	Dilution
Light Foam	1 Gallon : 100,000 Gallons
Moderate Foam	1 Gallon : 5000 Gallons
High Foam	1 Gallon : 100 Gallons

Technical Information:

Appearance: Opaque White Liquid
Odor: None
pH: 7.0
Foam: Non-Foaming

Associated Products:

Blue Foamer, Light Duty Detergent & Foam Booster
FM-1000 With Rust Inhibitor, Medium-Duty Spray Cabinet Detergent w/ Rust Inhibitor
Chlor-Bright, Medium Duty Powdered Detergent with Bleach
