

# MG HE Liquid Laundry

## Highly-Effective Laundry Detergent

MG HE Liquid Laundry is specially formulated for front load high efficiency washing machines. Standard detergents can cause over-sudsing when less water is used, and using less detergent sacrifices cleaning power.

MG HE Liquid Laundry provides excellent cleaning with optimal level of sudsing. It is specifically formulated with powerful ingredients to suspend more significant levels of soil. This helps leave your clothes looking bright.

- **Controlled Foam**
- **Effective in Cold or Hot Water**
- **Prevents Soil Re-deposition**
- **Effective in Hard Water**
- **Removes Oils, Grease & Fat**
- **Easy Rinsing**

**Usage Directions:** Sort laundry into similar color, type of fabric and soil condition. When laundering items for the first time, test for colorfastness in a solution of laundry detergent and cold water. Add 2 - 8 ounces of MG HE Liquid Laundry per 100-pound load as the washing machine is filling with water. Clothing and machine manufacturer's instructions should always take precedence over these recommendations.

If desired, MG ChlorSan bleach may be added approximately two minutes after wash cycle begins or MG 7% Fabric Softener may be added to the final rinse. Quantity of MG HE Liquid Laundry used will vary depending on local water conditions, water temperature selected and the amount and type of soils to be removed. Cold water rinsing is recommended for all wash loads.

### Safety & Hazards

Wear Protective Eye Glasses and Chemical-Resistant Gloves While Using MG HE Liquid Laundry

**Consult SDS for Further Safety Precautions**

**DOT Shipping Name:** Not Regulated.

### MG HE Liquid Laundry

#### Dilution Guidelines

Usage	Dilution
Whites Colorfast Fabrics & Heavy Soils	2-8 Oz / 100 Lb Load (Hot Water)
Permanent Press & Special Care Fabrics	2-8 Oz / 100 Lb Load (Warm Water)
Colored or Sensitive Fabrics	2-8 Oz / 100 Lb Load (Cold Water)

### Technical Information:

Appearance: Blue Transparent  
Odor:  
pH: 7.5 - 8.5  
Foam: Moderate Foam
