

Phosphate-Free and
Crystalline Silica-Free

Scour Power™

Multi-Purpose Cleaner
with Chlorine Bleach

Scour Power is a multi-purpose powder cleanser for general cleaning of institutional kitchens, restrooms, commissaries and other common areas. It is recommended for use in hotels, restaurants, industrial plants and factories. This powerful cleanser removes stains on tubs, fixtures, equipment, walls, sinks and other nonporous surfaces.

- Crystalline Silica Free!
- Removes Tough Stains
- Powerful Cleaning Action
- ALL POLY BOTTLE
- Chlorine Bleach
- Contains No Phosphate

DIRECTIONS: Sprinkle scouring powder on wet surface or a clean sponge. Rub. Rinse using clean, warm water. Repeat process as needed.

Use sparingly and rub gently with a damp sponge to prevent scratching delicate surfaces such as aluminum, fiberglass, plastic and enamel on refrigerators, dishwashers, oven doors and other appliances. Always test abrasive products on a small area prior to use. Do NOT use on silver, fabric or painted surfaces. Avoid prolonged contact on plastic laminate counter tops, worn plastic or older porcelain. May cause pitting or discoloration. Rinse promptly after use.

Warning: Do not mix with ammonia or other cleaning products. Store in a cool and dry place.

Safety & Hazards

Wear Protective Eye Glasses and Chemical-Resistant Gloves While Using Scour Power
Consult SDS for Further Safety Precautions

DOT Shipping Name: Not Regulated.
